### Description:

Protected by a wall, it is one of the warmest sites in the Rheingau. This makes the budding of the vines very early and ensures a long growing season. Which is reflected in the taste and aroma. The smell of caramelized stone fruit, on the palate finely fruity-exotic with green notes. Our Jesuitengarten is particularly juicy and melting at the same time. The fine residual sweetness supports the wine and is by no means dominant.

### Serving suggestions:

8°C, excellent to combine with Asian dishes, with a slight spiciness and sweetness-acidity play this wine can show off perfectly.
