### **Description:**

Hints of white pepper and hazelnut in combination with intense fruit aromas of pear and quince. A subtle spiciness paired with soft acidity and creaminess round out the flavor picture.

These vines are located on a small parcel of land in the upper Doosberg on the border of the Hallgartener Jungfer. We have always called the vineyard "Grenzstein", because it is located directly on the boundary stone, which is made of sandstone. The special feature of the terroir of this site is the combination of quartzite veins, coming from the Hallgartner Zange, and the calcareous soil, very valuable for Burgundy vines.

### **Serving suggestions:**

8°C, great companion to Mediterranean antipasti and cheese.
